

AIRCRAFT CARGO STRAPS WITH  
FAA AND EASA APPROVAL.

TSO-APPROVED  
**AIR CARGO  
TIE-DOWN STRAP**

# AIR CARGO TIE-DOWN STRAP

In response to the growing demand of airlines who only buy cargo straps which have a Technical Standard Order (TSO) approval, awarded by the USA's Federal Aviation Administration (FAA), Ancra proudly presents their full range of TSO cargo straps.

Cargo straps are used throughout the airline world to rigidly anchor air cargo ULD's during transport or on the ramp, ensuring there is no risk to the cargo, aircraft, aircrew or general public. They are designed to stop ULD's and pallets moving during flight.

TSO approval assures that straps meet the highest performance and quality standards as defined in TSO C-172.

Proponent is appointed as Authorized Global Distributor for these straps.

## MADE TO ORDER

Ancra TSO Straps are available with overcenter or ratchet buckle and double stud ring fittings or hook ends. A hybrid version (both double stud fitting and hook end) is also available. The straps exceed the TSO load limit requirement of 5,000 pounds. Available in 11 Federal 595 Standard Colors, they can be ordered in custom colors and logo printing for various applications.

## ANCRA TSO STRAPS

- Strongest webbing (10,000 lb rated) of any TSO strap to resist snags, cuts, frays and minimize elongation
- Military grade type 5 polyester webbing
