

CUSTOM HOSE KITS

FLY-AWAY/ HOSE REPLACEMENT KITS

These Fly-Away kits are small enough and mobile, allowing users to keep at a maintenance station, remote line stations, or can be placed in the aircraft. These kits are used to replace damaged hoses or rigid tubes in the event of unplanned maintenance needs. The hoses cover all pressure requirements and supports hydraulics, fuel, pneumatics, etc. If you are in need of assistance for any technical questions or bill of materials, please contact us direct for assistance.
