Series III Connectors

MIL-DTL-38999 Series III

The Military Specification MIL-DTL-38999 series III is a high performance, general purpose connector manufactured to stringent U.S. engineering standards. The Series incorporates a quick start 'Acme' thread and has an extensive range of shell styles and materials. The firewall, vibration and environmental characteristics generally exceed those demanded by the military/aerospace industries, making it suitable for applications where high performance is required.
