

Wire Splices Heatless

Your Partner in Aerospace Distribution
proponent.com

Proponent is a
franchised stocking
distributor for these
and other CarlisleIT
products

Proponent is proud to offer this State-of-the-Art wire splice. Designed to meet or exceed the requirements of AS81824/1 and AS81824/14 this product eliminates the requirement to purge an aircraft of fuels and other volatile fluids when repairing a damaged wire. This heatless splice system does not require the use of a heat source or electrical power. Using standard M22520 crimp tools a technician can repair a damaged wire in as little as 5 minutes.

Manufactured by Carlisle IT, a world class company this product is designed to offer the same sealing characteristics as standard solder type splices.

CarlisleIT Part Number	Military Designation*	AWG Range	Color
H-C2015N	AS81824/14-1	20,22,24,26	Red
H-C1615N	AS81824/14-2	16,18	Blue
H-C1215N	AS81824/14-3	12,14	Yellow

* MS number for reference only. Currently in Qualification

Proponent offers our customers numerous products manufactured by CarlisleIT, including connectors, contacts, wire and standard solder type splices. Contact your Proponent representative for more information.
