Your Partners in Aerospace

Factory New Exchange Units - No Eval Fee

Did you know Proponent sells Sensata (Kavlico) spares & facilitates repair services? Proponent and Sensata have partnered to offer an exclusive opportunity for customers to purchase factory new exchange units of LVDT **PN GM7184-6** — with no evaluation fee where Sensata determines units sent in for repair are BER. We can offer factory new units as outright sales or as exchanges for BER repair units.

Part Number Description and Details

ST/ Kavlico PN: GM7184-6

Alternate PN: S315N401-6

Product Description: Linear Variable Differential Transformer LVDT

NHA Application: Thrust Reverser Actuator

NHA PN: 315A2801, 315A6801

Qty Per Shipset: 4

PMA: Yes

NE Certification: OEM FAA 8130-3 Airworthiness Tag

Function: LVDT is placed inside the actuator to provide position measurements of the actuator for feedback control.
